

**DISK REPLACEMENT/UPDATE POLICY**

Some Sensible Software products are noncopyable. In the event that one of these "protected" disks becomes damaged or "worn out," the following policy applies:

Upon receipt of the (remains of the) disk that was originally purchased from Sensible Software and the appropriate fee (see below), Sensible Software will return to the purchaser a disk containing the latest version of the original program product. Sensible Software reserves the right to return the program product on a diskette other than the one originally purchased. If the product is still available for the retail price in effect at the time of the original purchase, the fee for this update/replacement service is \$7.50 to cover postage and handling. If the program product now retails at a higher price, the fee for this update/replacement service is \$4.00 plus the difference between the two retail prices. Overseas customers, please include \$5.00 extra for shipping.
