## Presenting "Muppet Learning Keys™" and the courseware that brings it to life!

The only thing better than a complete learning curriculum for your classroom computer . . . is one that stars Kermit, Miss Piggy and a host of other Muppets to attract and hold a young learner's attention.

Sunburst's unique, award-winning Muppet Learning Keys is a specially-designed, kid's computer keyboard that makes the computer more accessible than ever before. Think of it as the friendly interface between an enthusiastic 5-year-old and the classroom computer.

The Curriculum consists of three disks created specifically for Kindergarten use. Together, using that familiar Muppet wit, they cover many of the essential concepts and skills you'll be teaching during the school year, including:

### Reading and Language Arts

- listening to, and telling a story
- discriminating forms and letters
- recognizing the alphabet
- matching upper- and lower-case letter
- writing their names
- learning initial consonants and word endings

### Mathematics

- sorting and classifying by shape, size and color
- determining likeness and differences among objects
- developing one-to-one correspondence
- learning to count

### Other Important Concepts

- developing memory for visual and auditory patterns
- strengthening spatial relationships
- observing traffic safety rules
- observing awareness of surrounding environment

# The Complete Curriculum for Kids

## Muppet Learning Keys™ (with Muppets On Stage)

Grade level: Preschool-1  
Designed by Henson Associates and Sunburst Communications

It's classroom computing at its best—even the keyboard looks delightfully inviting! The Muppet-filled keyboard is specially designed to give little hands complete control—without touching the computer at all. Numbers and letters are in sequential order, and kids control a "paintbox" of 8 color keys. They can press graphically clear keys to "STOP", "GO", get "HELP", erase a mistake, and more. And the lightweight keyboard (with extra-long cord) passes easily from lap to lap, making it ideal for special education classes, too.

Muppets On Stage courseware comes with your Muppet Learning Keys. (The Teacher's Guide is available separately.) Three colorful, musical, animated games introduce counting, letter and number recognition, colors and initial consonants.

The Muppet Learning Keys may also be used with a 64K Apple II with an adaptor connected to the joystick port.

- For 64K Apple IIe, IIc or IIgs.  
No. 1288-HC: Muppet Learning Keys ..... \$99  
No. 1554-HC: Adaptor for Apple II ..... \$9.95  
No. 1644-HC: Muppets On Stage for regular keyboard (includes Guide) ..... \$65  
No. 164410-HC: Muppets On Stage 10-Disk Lab Pack ..... \$195
- For Commodore 64.  
No. 1297-HC: Muppet Learning Keys ..... \$99
- For 128K IBM PCjr. Color graphics card required.  
No. 1438-HC: Muppet Learning Keys ..... \$99

## Muppetville™ Identifying and Classifying Shapes, Colors and Numbers

Grade level: Preschool-1  
Designed by Chris Cerf, Bill Prady, Henson Associates; Marge Kosel, Melissa Verber, Mike Fish, Sunburst.

Kermit the Frog leads kids around Muppetville, stopping at activity-filled places like Gonzo's Zoo (where they are asked to identify which fanciful creature is different in color or shape from the others). . . the Statler Waldorf Hotel (where they open windows to match shapes, in a concentration-type game). . . and Bunsen and Beaker's Factory (where they practice simple addition, receiving feedback and positive reinforcement from a whimsical number machine).

One disk, backup, extensive, 95-page Teacher's Guide filled with lesson plans and ideas.

- For 64K Apple IIe, IIc or IIgs. Operates with Muppet Learning Keys, Touch Window or regular keyboard.  
No. 1504-HC ..... \$65  
No. 150410-HC: 10-disk Lab Pack ..... \$195

## Winner of the 1986 Parents' Choice Gold Seal Award

## Muppet Word Book™ An Introduction to Letters, Words, and Writing

Grade level: Preschool-1  
Designed by Chris Cerf, Bill Prady, Henson Associates; Marge Kosel, Melissa Verber, Andrew Armstrong, Sunburst.

Miss Piggy, Fozzie Bear and their favorite friends introduce young learners to the joy of reading, in this "book brought to life". 6 colorful, animated "chapters" introduce and reinforce basic language concepts. Kids learn upper- and lower-case letters by sending them up and down in a Muppet-style elevator. . . "Pigs in Space" is the place to practice letters. . . and catapulting Gonzo from a circus cannon is a memorable way to learn initial consonants! Kids can even write their own names on Kermit's simple word processor (with print option).

One disk, backup, extensive, 78-page Teacher's Guide brimming with ideas and curriculum enrichment.

- For 64K Apple IIe, IIc or IIgs. Operates with Muppet Learning Keys, Apple Mouse, Touch Window or regular keyboard.  
No. 1422-HC ..... \$65  
No. 142210-HC: 10-Disk Lab Pack ..... \$195

## More Sunburst Courseware To Use With Your Muppet Learning Keys (or your regular keyboard) in Grades K-4

Simon Says

Teddy & Iggy

Memory Building Blocks

Now You See It, Now You Don't

Tiger's Tales

### SIMON SAYS

Grade level: 1-6  
Designed by: Rochester School District, Rochester, MN

Simon Says your students will enjoy remembering sequence of colors, numbers and letters with this colorful program adaptable to many different grade levels. A special teacher control option allows you to change the speed and order of sequences, and control which letters your students will work with. One disk, backup, teacher's guide.

For 64K Apple II family. Operates with regular keyboard, Touch Window or Muppet Learning Keys. Color monitor required.  
No. 1625-HC ..... \$65  
No. 162510-HC: 10-Disk Lab Pack ..... \$195  
For Commodore 64. Operates with regular keyboard or Muppet Learning Keys. Color monitor required.  
No. 1691-HC ..... \$65  
No. 169110-HC: 10-Disk Lab Pack ..... \$195

### TEDDY & IGGY

Grade level: 1-3  
Designed by: Rochester School District, Rochester, MN

Let your students practice remembering sequence with Teddy, the bear, and Iggy, the inchworm. Teddy challenges students to remember how he makes his bed and how he stacks brightly colored shapes. In Iggy's program, Iggy opens a sequence of boxes marked with the first letter of the object hidden inside. Both programs include special Teacher Control Options.

For 64K Apple II family. Operates with regular keyboard, Touch Window or Muppet Learning Keys.  
No. 1624-HC ..... \$65  
No. 162410-HC: 10-Disk Lab Pack ..... \$195  
For Commodore 64. Operates with regular keyboard or Muppet Learning Keys.  
No. 1661-HC ..... \$65  
No. 166110-HC: 10-Disk Lab Pack ..... \$195

### MEMORY BUILDING BLOCKS

Grade level: K-adult  
Designed by: Donna Stanger, Joe Thomas and David Owen

See how quickly young children improve their visual and auditory memory skills, as they choose the memory strategy that works best for them! Five colorful "concentration-type" games (Pictures, Words, Letters, Shapes and Tunes) plus nine different game boards make this program suitable for a wide range of abilities.

One disk, backup, Teacher's Guide.  
For 64K Apple II family. Operates with Muppet Learning Keys, Touch Window or regular keyboard.  
No. 1534-HC ..... \$65  
No. 153410-HC: 10-Disk Lab Pack ..... \$195  
For Commodore 64. Operates with regular keyboard only.  
No. 1417-HC ..... \$65  
No. 141710-HC: 10-Disk Lab Pack ..... \$195

### NOW YOU SEE IT, NOW YOU DON'T

Grade level: K-6  
Designed by: Rochester School District, Rochester, MN

In these two enjoyable programs of memory recognition, students are challenged to find the missing parts of a puzzle. Both programs use simple yes, no answers and the computer keeps score of each challenge.

For 64K Apple II family. Operates with regular keyboard, Touch Window or Muppet Learning Keys.  
No. 1620-HC ..... \$65  
No. 162010-HC: 10-Disk Lab Pack ..... \$195

### TIGER'S TALES

Grade level: K-2  
Designed by: Mary Anne Hermann and Eric Grubbs

Designed especially for beginning readers, this highly effective program takes a problem solving approach to reading comprehension and vocabulary skills. Using a series of exciting, funny, interactive stories about a cat named Tiger, the program presents simple text on the screen, and asks students to take action based on the instructions they've just read. A special picture-to-word matching section preceding each story prepares them for the story that follows.

One disk, backup, Teacher's Guide. Color monitor recommended.  
For 64K Apple II family. Operates with Muppet Learning Keys, Touch Window or regular keyboard.  
No. 1583-HC ..... \$65  
No. 158310-HC: 10-Disk Lab Pack ..... \$195  
For Commodore 64. Operates with Muppet Learning Keys or regular keyboard.  
No. 1439-HC ..... \$65  
No. 143910-HC: 10-Disk Lab Pack ..... \$195
