and only a few keys to type. Work your way up to World-Pro Class 5 with fast balls and as many as 10 keys to type while the ball is in motion.

You can pick your favorite game — basketball, bowling or baseball — and pick your level of play. You can also select the kind of keys you want to type. Start out typing letters or words. Move up to letters and numbers or the challenging *letters, numbers and symbols* level that includes symbols and punctuation marks.

Don't think you're good at sports? Well, TYPING IS A BALL, CHARLIE BROWN is your ticket to the winner's circle. Whether you're trying to beat your own top score or beat an opponent, you're sure to have a ball if you give it your best shot!

*The first time you load this program, the Owner's Frame appears instructing you to type your name and press RETURN. Be sure to type your name accurately. This is the only time your name can be entered.

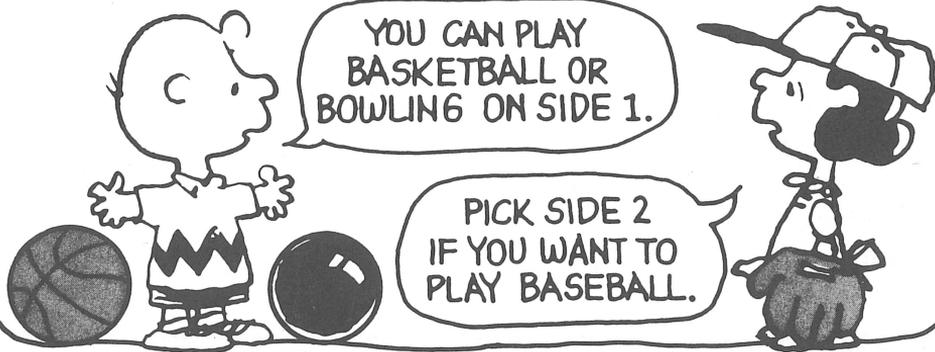

READY, SET, GO!

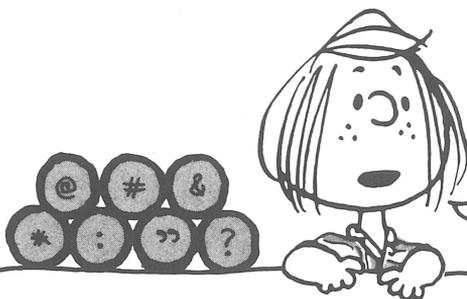

On Side 1, press RETURN at the Random House Frame to go to the game selection screen to choose *basketball* or *bowling*.

Type 0 at the Title Frame

to set your playing options.

Within the options menus, press the SPACE BAR to scroll through your options, then press RETURN to make a choice.

IF YOU CHOOSE THE LETTERS, NUMBERS AND SYMBOLS LEVEL, REMEMBER YOU MUST PRESS THE SHIFT KEY TO TYPE SOME SYMBOLS AND PUNCTUATION MARKS.

You can play the game just the way you like by choosing the:

1. SPEED OF THE BALL —

Pick slow, medium or fast. At each level, the ball will get faster during the game if you are successful and slow down a bit if you miss.

2. NUMBER OF KEYS —

— Pick the number of keys from 2 to 10 that you'll need to type to score.

3. KIND OF KEYS —

Choose to type just letters, letters and numbers, words, or letters, numbers and symbols.

If you want to get a feel of the game before making any decisions, just press RETURN at the Title Frame. The program is preset to play at a medium ball speed and it will display 5-letter words for you to type.

You can play alone or with another player. Type your name(s) in and you're ready to start.

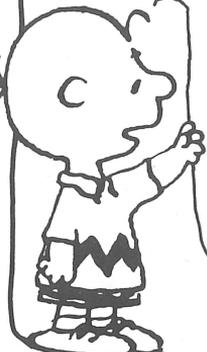

If there are 2 players, look at the bottom of the screen to see whose turn it is. An asterisk (*) will also appear next to that player's name on the baseball scoreboard.

Press 0 at the Title Frame to set your options. Or press RETURN and select 1 or 2 players for your baseball game.

Your options include:

1. SPEED OF BALL
2. NUMBER OF KEYS
3. KIND OF KEYS
4. NUMBER OF INNINGS

HERE'S AN IMPORTANT TIP ABOUT YOUR OPTIONS. ONCE YOU PICK AN OPTION ON SIDE 1 OR 2, YOU CAN PLAY THAT WAY AGAIN AND AGAIN UNTIL YOU CHANGE IT. EVEN WHEN YOU REBOOT, THE PROGRAM WILL REMEMBER THE WAY YOU LIKED TO PLAY THE GAME.

The game is preset to 3 innings. You can choose from 1 to 9 innings depending on how long you want the game to last.

OK.
I'VE MADE MY CHOICES.
HOW DO I PLAY THESE GAMES?

Press the SPACE BAR to set the game in motion. Then get ready to type whatever appears at the bottom of the screen as fast as you can! If you hit all the keys correctly, you'll sink a basket, knock down pins or get a hit.

The more you play, the better you'll learn the location of the keys on the keyboard and the more points you'll rack up on the scoreboard.

FORGET
WHAT TO
DO?

Press **CONTROL** and **D** to see directions. You can do this whenever the program is waiting for you to press **RETURN** or the **SPACE BAR**.

THE GAME
EARLY?

Press **CONTROL** and **X** to end the game without completing it.

BASKETBALL

Charlie Brown is at the freethrow line. Try to type all the keys at the bottom of the screen before the ball reaches the rim of the basket. If you do, Charlie will sink the ball and add 2 points to your score.

If you're too slow, the ball bounces off without scoring.

Each player gets 10 shots. If the score is tied at the end of the game, you'll go into overtime. The game ends when one player scores more points with the same amount of tries.

BOWLING

Type well and fast to help Charlie Brown knock down lots of bowling pins. The faster you type, the more pins you knock down. Type slow and the ball ends up in the gutter!

Scoring is just like actual bowling. Each player gets 10 frames to bowl and two tries in each frame to knock down all 10 pins.

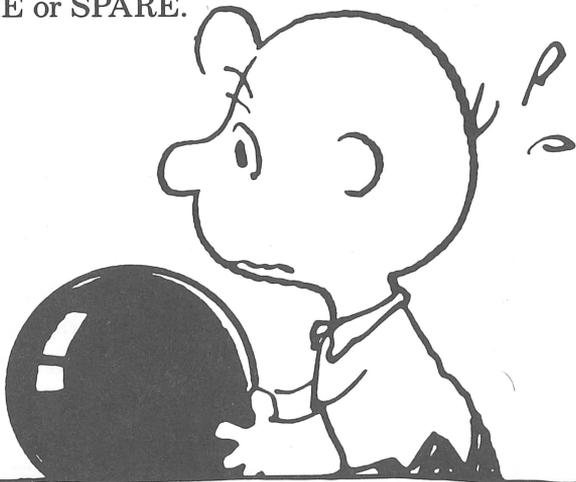

Knock down all 10 pins on your first or second try and get a **STRIKE** or **SPARE**.

Your score will not be totaled until you bowl your next frame. This is indicated by a + symbol after your score.

You can tell it's your first shot by looking at the scoreboard. The left corner of the triangle of pins will be orange.

It's a player's second shot when the right corner is orange.

Count the number of pins in the triangle to see how many you knocked down.

BASEBALL

Type fast and well and you'll help the Peanuts® team hit the ball far. The faster you type, the better the hit.

Each player gets a turn at bat for as many innings as you choose to play.

Three strikes and you're out. Three outs and it's your opponent's turn.

The small baseball diamond in the scoreboard frame shows the runners as they round the infield and run to home plate.

The scoreboard shows what inning you're playing, how many outs you have, and whether you hit a single, double, triple or home run.

If the score is tied after the last inning, the game goes into extra innings until there is a winner.

At the end of each game, players are congratulated and shown how their scores rank them among their athletic competitors.
